---

## PROFESSIONAL SUMMARY

---

Frontend Engineer with 5+ years of experience building production web applications using React, Next.js, TypeScript and JavaScript. Experienced in enterprise dashboards, complex workflows, REST API integration, reusable component architecture, responsive design, accessibility and frontend performance optimization. Led frontend delivery across banking, payments, investment and employee-management products from requirements through production.

## TECHNICAL SKILLS

---

**Frontend:** React.js, Next.js, App Router, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, React Native, Radix UI

**State & Data:** Redux Toolkit, Zustand, TanStack Query, React Context, REST APIs, GraphQL

**Frontend Architecture:** Reusable component systems, design systems, complex workflows, role-based interfaces, enterprise dashboards, responsive web applications

**Performance:** Core Web Vitals, Lighthouse, SSR, SSG, code splitting, lazy loading, caching, frontend performance optimization

**Testing & Engineering:** Jest, Cypress, visual regression testing, Git, GitHub, Agile development, code reviews, CI/CD

**Cloud & DevOps:** AWS, Docker, Firebase, Vercel, Netlify, GitHub Actions

## PROFESSIONAL EXPERIENCE

---

### AlertMFB - Senior Frontend Engineer | January 2026 - Present

- Lead a team of three frontend engineers across requirements gathering, technical planning, implementation, testing and production delivery.
- Delivered the frontend of AlertEvaluate, a role-based enterprise appraisal platform supporting employee self-assessment, manager review, return, approval, acceptance and HR administration workflows.
- Maintain and enhance Business Central, delivering business and mobile banking features with REST API integration and robust transaction, validation, loading and error states.
- Built the BucksInvest Partner Application, delivering reusable partner-facing dashboards and multi-step investment workflows through production readiness.
- Developed reusable components and shared frontend patterns that improved consistency and accelerated feature delivery across products.
- Optimized Core Web Vitals and maintained 90+ Lighthouse scores across production interfaces.
- Mentor two junior frontend developers through code reviews, technical guidance and frontend best practices.

### UniswitchNg - Frontend Engineer | January 2023 - December 2025

- Spearheaded frontend delivery for Sarepay Checkout, a secure payment gateway supporting thousands of monthly transactions.
- Built and maintained fintech and workforce-management interfaces across Sarepay, BillerHQ and HRDesk, including role-based dashboards, payment workflows and administrative interfaces.
- Integrated REST APIs and implemented efficient caching and state-management strategies across data-intensive interfaces.
- Collaborated with backend engineers working with NestJS and PostgreSQL to improve end-to-end product reliability.

### **Tech Citadel - Frontend Developer** | September 2024 - January 2025

- Developed a reusable UI kit supporting three product squads and consistent design patterns.
- Improved landing-page Largest Contentful Paint by 32% through code splitting, critical CSS and image optimization.
- Integrated GraphQL APIs and optimized frontend caching, reducing response times by 35%.

### **Bincom Dev Center - Frontend Developer** | January 2021 - December 2022

- Built responsive web applications using React, Vue and Angular.
- Developed reusable frontend components and API-driven user interfaces.
- Implemented CI/CD and code-review workflows that improved development and release processes.
- Mentored junior developers on frontend engineering practices.

## **SELECTED PRODUCT EXPERIENCE**

---

### **AlertEvaluate - Enterprise Appraisal Platform**

Role-based performance-management platform for employees, managers and HR with multi-stage submission, review, return, approval and acceptance workflows.

*Focus: Next.js App Router, enterprise interfaces, complex workflows, REST API integration, reusable components, accessibility.*

### **Business Central - Enterprise Banking Platform**

Business and mobile banking interface supporting API-driven financial workflows, transaction states and responsive operational screens.

*Focus: Fintech dashboards, API integration, state management, validation, performance optimization.*

### **BucksInvest - Partner Investment Application**

Partner-facing investment platform with dashboards, multi-step business processes and reusable frontend architecture.

*Focus: Analytical interfaces, complex workflows, component architecture, production readiness.*

## **CERTIFICATIONS**

---

- AWS Certified Solutions Architect - Associate
- AWS Certified Cloud Practitioner
- ALX AWS Cloud Computing Specialization

## **EDUCATION**

---

### **B.Sc. Computer Science and Education**

University of Nigeria, Nsukka | October 2019
